During May and June, the FA Executive Board has been holding a series of general membership meetings and meetings with department chairs to provide information to the faculty about possible changes in class delivery modes and issues involving a safe campus re-opening that are being discussed, to gather input from the faculty, and to develop solutions that work for everyone. We realize this is a monumental undertaking, and we look forward to continuing to work with the University administration on plans for re-opening campus in the Fall.”

Red – Proposed Changes

Alcohol and Other Drugs Policy

Policy Rationale

Saginaw Valley State University strives to offer members of the University community the same rights as those afforded to members of the larger community. All members of the University community are responsible for making decisions about their behavior within the context of Michigan law and University regulations.

The Drug-Free Workplace Act of 1988, Subtitle D, Section 5152 and the Drug Free Schools and Communities Act Amendments of 1989, PL No. 101-226, requires that Saginaw Valley State University maintain an environment free from the unlawful manufacture, distribution, dispensation, possession or use of controlled substance and/or alcohol. This policy Concerning the Use of Alcohol and Other Drugs (this “Policy”) applies to all activities on University property, University sponsored events and may extend to off-campus activities and behaviors. Any violation of the Policy constitutes a violation of the SVSU Code of Student Conduct. Such violations may result in disciplinary action by both the University and civil authorities.

This Policy is written as evidence of Saginaw Valley State University’s commitment to its students by:

- Encouraging a campus environment where healthy choices are made;
- Working to prevent alcohol and other drug abuse;
- Accepting responsibility for one's own choices and behavior;
- Encouraging alcohol-free programs;
- Supporting and empowering those who choose responsibly not to use alcohol; and
- Enforcing University rules and regulations, and federal, state, and local laws that govern alcohol and other drug use.

Alcohol & Drug Related Incidents Requiring Medical Attention

In the case of alcohol intoxication, alcohol poisoning, drug overdose or other alcohol or drug-related medical emergency, the primary concern is the health and safety of the individual(s) involved. Students are strongly encouraged to seek immediate medical assistance for themselves or their peers in the case of an alcohol or other drug-related medical emergency. Students for whom medical assistance is sought, and those who seek medical assistance for themselves or for others, for alcohol or other drug-related medical emergencies will not be subject to University discipline for the sole violation of using or possessing alcohol or drugs. Such students may, however, be referred to University education and support programs or community referrals and may be subject to disciplinary action when other University rules or policies have been violated. Further, students remain subject to local, state, and/or federal laws concerning the use of alcohol and/or other drugs, and may be subject to penalties as prescribed by law.

An individual, for whom emergency medical assistance is sought due to an alcohol or drug-related condition, is financially responsible for all costs of his or her medical care, including ambulance and/or hospitalization.

Disciplinary Process

Students accused of behavior in violation of this Policy are subject to the disciplinary process and procedures set forth in the SVSU Code of Student Conduct and this Policy. In the event a student is notified of a violation of this Policy, the student must contact the designated student conduct officer within two (class) days of notification. A screening appointment will then be scheduled within the next five (class) days and a determination of the appropriate sanction(s) will be completed within the following two weeks, when school is in session.

Parental Notification

In October of 1998, Congress passed an amendment to the Family Education Rights and Privacy Act (FERPA) which allows an institution of higher education to disclose to parents or legal guardians of a student, information involving a violation of federal, state, local law or a rule or policy of the institution governing the use or possession of alcohol and/or other drugs, if the student is under the age of 21 and the institution has determined that a disciplinary violation occurred. In response to alcohol-related tragedies in the State of Michigan and across the country, SVSU's policy is to inform parents or guardians of a student under the age of 21 when the student is found responsible for a violation(s) of this Policy.

Risks Related to Alcohol and Other Drugs

Alcohol and other drug use can start out as casual or social use and progress into abuse and dependence. The abuse of alcohol and other drugs can diminish the personal attainment of intellectual, social, physical, and moral growth and development.

Civil (Dram Shop) Liability

Students should also be aware that civil liability may be incurred when their sale or furnishing of, or assistance procuring alcoholic beverages to an intoxicated person is found to have caused

or contributed to property damage or personal injury or death of a person. Such liability may arise independently of any University sanctions or prosecution under local, state or federal law.

Provisions Specifically Relating to Other Drugs

University Drug-Related Regulations

The following University regulations govern the possession, use, manufacture, sale or distribution of controlled substances (as defined by the Michigan Public Health Code):

- Any student unlawfully using controlled substances, possessing controlled substances or drug paraphernalia, selling or otherwise distributing controlled substances is subject to discipline under the Code of Student Conduct.
- The use of prescription drugs or over-the-counter substances, such as inhalants or herbals, in any way other than the intended or appropriate use, may be interpreted as a violation under this Policy.
- The odor of a controlled substance may constitute a violation of this Policy.
- Evidence of a drug-related violation of this Policy will be reported promptly to the University Police.
- Criminal and civil penalties imposed under federal, state and local laws for controlled substance violations can be severe and can include imprisonment.
- Drug violations, of which students are convicted, may affect his or her eligibility for financial aid.
- Violations of drug regulations may result in disciplinary action by both the University and civil/criminal justice systems.
- The University will pursue prosecution of students utilizing drugs in the execution of a crime or civil infraction.
- Residents are responsible for the guests' behavior and may be charged through the disciplinary process for the actions of guests who violate this Policy.

Medical Marijuana and Michigan Regulation and Taxation of Marihuana Act

The use, possession, storage or cultivation of marijuana in any form and for any purpose is prohibited at Saginaw Valley State University. Although the Michigan Medical Marijuana Act of 2008 (the "MMMA") permits qualified patients with specific medical conditions and their primary caregivers to use and possess marijuana, the MMMA conflicts with federal laws. Additionally, Michigan Regulation and Taxation of Marihuana Act also conflicts with federal laws. Because the University receives federal funding and is subject to the Drug-Free Workplace Act of 1988 and the Drug Free Schools and Communities Act Amendments of 1989, the use, possession, storage or cultivation of marijuana by anyone while on SVSU property, regardless of whether they are a licensed/registered patient or caregiver under the MMMA or of legal age, is a violation of this Policy and, therefore, a violation of SVSU's Code of Student Conduct.

Drug Disciplinary Sanctions

A student who is determined to have violated this Policy for a drug-related infraction is subject to the sanctions set forth in SVSU's Code of Student Conduct, as well as the sanctions described below. In addition, such student is subject to prosecution and punishment under federal, state and local laws.

The following tables are a general summary of the range of possible University drug-related sanctions. Sanctions are cumulative and may be enhanced based on past disciplinary record, the severity of behavior and/or the impact of the violation upon the community. There may be circumstances that are cause for exception. Penalties will reflect the degree of the drug-related violation and may include appropriate developmental sanctions or disciplinary restrictions, and in certain situations, a student may be expelled upon the first occurrence of a drug-related violation of this Policy.
